Application Deadline

Rolling admissions

All Master ’s degrees in special education require 30 credits, as well as a culminating experience. Some graduate courses may require field experiences. Courses should not be taken without an adviser’s approval.

Graduate students can work towards a Master of Science degree in Special Education in a variety of concentration areas, including Learning Disabilities, Emotional Behavioral Disorders, Assistive Technology, Autism Spectrum Disorders and Other Developmental Disabilities and Interdisciplinary Special Education. Sixth-year professional diplomas in Applied Behavior Analysis and Assistive Technology are also offered.

Admission and program requirements are as follows:

• 3.0 minimum undergraduate GPA
• The program must include 30 credits at the 500 level or above
• Each student must choose an area of concentration for the master's program from the following:
  • Interdisciplinary
  • Learning Disabilities
  • Emotional Behavioral Disorders
  • Assistive Technology
  • Autism Spectrum Disorders and other Developmental Disabilities

An interview, essay and two letters of recommendation are required for admission. However, additional materials may be required. Please contact an adviser for more information.

The program includes a culminating requirement such as a comprehensive exam or a thesis. Contact the Special Education and Reading Office for information on acceptance to the program.

Assistive Technology — 30 Credits

• SED 517 — Introduction to Adaptive Technology — 3 credits
• SED 593 — Adaptive Technology for Reading and Writing — 3 credits
• SED 594 — Adaptive Technology for Individuals with Multiple Disabilities — 3 credits
• SED 595 — Adaptive Technology Assessment — 3 credits
• SED 596 — Clinical Practice in Adaptive Technology — 3 credits
• SED 636 — Critical Issues in Assistive Technology — 3 credits

*12 credits of graduate electives may be chosen from special education or related courses with advisor approval, but these may not be credits that have been applied to a previous degree. These courses may be any graduate level course in the School of Arts and Sciences, School of Education, or School of Health and Human Services.

*Comprehensive Exam in Assistive Technology is Required.

Special Education Comprehensive Examination Schedule

• Fall — Study Session: to be announced (see website). Comprehensive Examination: Typically given on the third Saturday in November, 9 a.m.-1 p.m.
• Spring — Study Session: to be announced (see website). Comprehensive Examination: Typically given on the first Saturday in April, 9 a.m.-1 p.m.

NOTE: If Easter falls on the first Sunday in April, comprehensive examinations will be held on the second Saturday.
APPLIED BEHAVIOR ANALYSIS, GRADUATE CERTIFICATE

Application Deadline

Rolling admissions

For further information: SpecialEdGrad@southernct.edu

The ABA programs prepare students to meet the coursework requirements to sit for the exam to become a Board Certified Behavior Analyst (BCBA), an international certification in Applied Behavior Analysis (ABA). Professionals with certification in ABA are highly sought after in many fields including education, special education, and school psychology. There are two ABA program options – a Sixth Year Diploma Program and a Certificate Program. Both programs prepare students to take and pass the BCBA exam and to use ABA in applied settings, such as with individuals with or without disabilities in educational or therapeutic environments. The ABA courses will be particularly relevant for special educators, school psychologists, and other educational professionals. Supervised Independent Fieldwork is available as a program option.

Verified Course Sequence (VCS) first time pass rate data for the BCBA exam can be found at the BACB website here. Please note pass-rate data are not published for sequences with fewer than six first-time candidates in a single year or for sequences within their first four years of operation.

Applied Behavior Analysis — Certificate Program — 18 Credits in Program (minimum)

- SED 690 — Principles of Applied Behavior Analysis — 3 credits
- SED 691 — Research and Measurement — 3 credits
- SED 693 — Assessment in Applied Behavior Analysis — 3 credits
- SED 694 — Intervention in Applied Behavior Analysis — 3 credits
- SED 692 — Advanced Applied Behavior Analysis — 3 credits
- SED 641 — Ethical and Professional Conduct — 3 credits

Optional

* SED 695 — Supervised Independent Fieldwork in ABA — 1 credit

* SED 695 may be taken up to three times and is an option for those who would like Southern to provide support for BACB required supervision. At this time, students must arrange the location of supervision, where they are employed for 30+ hours per week (e.g., at the school where they currently work).

The Graduate Certificate in Applied Behavior Analysis currently runs on a cohort system (subject to change), with a new cohort beginning every 3 semesters (e.g., Fall 2016, Spring 2018, etc). Applicants are encouraged to contact the Special Education and Reading department to verify next cohort start dates and application timeline. Applicants
planning to sit for the BCBA exam must have a master's degree in Psychology, Education, or ABA to be eligible for the BCBA exam. Please contact the Special Education and Reading department for more information on the application process.

**Gainful Employment**

*Please visit our [Gainful Employment Disclosures](#) website for more information about non-degree programs (i.e. certificate programs) graduation rates, median loan debt of students who complete the program, and other important information.*

SOUTHERN CONNECTICUT STATE UNIVERSITY

SPECIAL EDUCATION, SIXTH YEAR CERTIFICATE - APPLIED BEHAVIOR ANALYSIS

For further information: SpecialEdGrad@southernct.edu

Application Deadline

Rolling admissions

The major purpose of the sixth year professional program is to extend professional knowledge of practitioners in school programs for exceptional children. Corollary objectives provide for advanced professional preparation in special education, expansion of knowledge concerning other areas of exceptionality, and creating an awareness of the problems concerned with special education administration and supervision. The program is open to candidates who hold a master’s degree. Admission requirements include a departmental interview, submission of an essay, and two letters of recommendation.

Individual programs are planned by the adviser and are based upon the applicant’s background, training, and educational experience. Up to nine graduate credits of transfer credits are allowed only if the courses transferred are commensurate with those required for the sixth year program.

Sixth Year Professional Diploma—courses will be planned with student individually. The program will include a minimum of 15 credits at the 600 level.

Inclusion and student diversity are changing the way in which educational services are delivered. Teachers and support staff increasingly collaborate in the classroom to individualize and enhance instruction for students with special needs. This course of study prepares educators in a wide range of collaborative approaches, including teamwork, co-teaching, coaching, and consultation, and includes core courses, guided application projects, and participation in a collaboration/consultation practicum. The five courses in collaboration/consultation may be taken with the courses required for certification in Educational Leadership as an Intermediate Administrator.

Verified Course Sequence (VCS) first time pass rate data for the BCBA exam can be found at the BACB website here. Please note pass-rate data are not published for sequences with fewer than six first-time candidates in a single year or for sequences within their first four years of operation.

Applied Behavior Analysis — Sixth Year Professional Diploma —30 Credits in Specialization

- SED 690 — Principles of Applied Behavior Analysis — 3 credits
- SED 691 — Single Subject Research Methods — 3 credits
• SED 693 — Assessment in Applied Behavior Analysis — 3 credits
• SED 694 — Intervention in Applied Behavior Analysis — 3 credits
• SED 692 — Advanced Applied Behavior Analysis — 3 credits
• SED 641 — Ethical and Professional Conduct — 3 credits

Electives

  * SED 695 — Supervised Independent Fieldwork in ABA — 1 credit

12 electives needed to reach the 30 credit requirement. These electives may be any graduate level course in the School of Arts and Sciences, School of Education, or the School of Health and Human Services. Up to 6 credits of graduate level coursework may be applied to the 6th Year Diploma only if those credits have not been previously applied towards another degree.

*SED 695 may be taken up to three times and is an option for those students who would like Southern to provide support for BACB required supervision. At this time, student must arrange the location of supervision, where they are employed for 30+ hours per week (e.g., at the school where they currently work).

The 6th Year Diploma in Special Education with a specialization in Applied Behavior Analysis currently runs on a cohort system (subject to change), with a new cohort beginning every three semesters. (e.g., Fall 2016, Spring 2018, etc). Applicants are encouraged to contact the Special Education and Reading department to verify next cohort start dates and application timelines. Please contact the Special Education and Reading department on the application to the program.

*Comprehensive Exam in Learning Disabilities is Required.

**Special Education Comprehensive Examination Schedule**

- **Fall** — Study Session: to be announced (see website). Comprehensive Examination: Typically given on the third Saturday in November, 9 a.m.-1 p.m.
- **Spring** — Study Session: to be announced (see website). Comprehensive Examination: Typically given on the first Saturday in April, 9 a.m.-1 p.m.

**NOTE:** If Easter falls on the first Sunday in April, comprehensive examinations will be held on the second Saturday.
COURSES

**IDS 562 - Child Abuse: An American Problem**
The concerns and issues of child abuse and how to assist abused children and their families. Scheduled fall of odd years.
Last Offered: Spring 2019
3 credits

**SED 512 - Curriculum Methods and Materials for Students with Autism Spectrum**
Disorders and Other Developmental Disabilities
Provides curriculum, methods and strategies to address challenges associated with autism spectrum disorders and other developmental disabilities. Students review a child's disabilities and obtain current knowledge about existing, evidence-based strategies. Typically offered spring semesters.
Prerequisite(s): SED 520.
Last Offered: Spring 2020
3 credits

**SED 514 - Transition within Disability Services**
Dealing with other professionals, participating in and leading interdisciplinary teams, and developing community resources. Typically offered spring and fall semesters.
Last Offered: Spring 2020
3 credits

**SED 516 - Field Studies in Special Education**
Clinical practices in agencies, institutions, and independent living facilities. Graduate educators only. Scheduled irregularly.
Last Offered: Spring 2019
3 credits

**SED 517 - Introduction to Adaptive Technology**
An overview of hardware and software for students with learning, cognitive, sensory and physical disabilities. Focuses on accessing and adapting computers, technology integration, and methods for collaborating with related services professionals. Typically offered spring semesters.
Prerequisite(s): SED 225 or SED 481 or SED 482 and SED 335 or departmental permission.
Last Offered: Spring 2020
3 credits

**SED 519 - Clinical Practices in Developmental Disabilities**
Supervised experience in planning and implementing instruction for students with developmental disabilities. Typically offered summer semesters.
Prerequisite(s): SED 325 and departmental permission.
Last Offered: Summer 2019
1 to 6 credits

**SED 520 - Nature and Needs of Individuals with Autism Spectrum Disorders and Other Developmental Disabilities**
Other Developmental Disabilities Overview of autism spectrum and other developmental disabilities, including definitions, origins and characteristics. IDEA requirements and legal issues as well as the roles and responsibilities of families in the educational process will be addressed. Typically offered fall and spring semesters.
Last Offered: Spring 2020
3 credits
SED 523 - Assessment and Intervention for Students with Emotional and Behavioral Disorders

Overview of evidence-based assessment and intervention strategies for students with emotional and behavioral disorder using a developmental framework that considers individual and contextual characteristics, including risk and protective factors.
Prerequisite(s): SED 375 or equivalent.
Last Offered: Fall 2019
3 credits

SED 525 - Curriculum and Instructional Methods for Students with Emotional and Behavioral Disorders

Research-based programing with focus on curriculum and instructional strategies to improve academic and social-emotional competencies of students with emotional and behavioral disorders at school, home and community environments.
Last Offered: Fall 2019
3 credits

SED 526 - Seminar in Contemporary Issues in Emotional and Behavioral Disorders

Examination of contemporary issues in the education of students with emotional and behavioral disorders, including theory, policy, research and practice.
Prerequisite(s): SED 523 and SED 525.
Last Offered: Spring 2020
3 credits

SED 527 - Positive Behavior Support for Students with Emotional and Behavioral Disorders

Development of positive behavior support plans based on principles of behavior, functional analysis and policies regarding disciplinary procedures. Emphasis on collaboration, positive and culturally responsive learning environments and data collection methods.
Last Offered: Spring 2020
3 credits

SED 529 - Clinical Practices with Students with Emotional disorders.

Supervised experience in assessment and instruction of students with emotional and behavioral disorders.
Prerequisite(s): SED 375 and departmental permission.
Last Offered: Summer 2019
1 to 3 credits

SED 530 - Approaches to Learning Disabilities: Issues and Research

Cause, identification, diagnosis, and remediation. Research evidence on effectiveness of different diagnostic and remediation approaches. Typically offered fall and spring semesters.
Last Offered: Spring 2020
3 credits

SED 535 - Programming for Learning Disabilities: Middle School and Secondary Level

Techniques for advanced academic skills, vocational and career education considerations, and delivery of services. Typically offered fall semesters.
Prerequisite(s): SED 365, SED 435.
Last Offered: Spring 2020
3 credits

SED 536 - Diagnostic Testing and Reporting in Learning Disabilities

Understanding and application of basic measurement concepts used to plan a total educational program for a child. Typically offered fall and spring semesters.
Prerequisite(s): SED 365, SED 435, SED 530, SED 535 or SED 554 and departmental permission.
Last Offered: Spring 2020
3 credits
SED 537 - Seminar in Learning Disabilities
Synthesis and integration of theoretical and practical aspects of the field, historical perspectives and examination of issues and research. Typically offered fall and spring semesters.
Prerequisite(s): SED 530 (may be taken concurrently).
Last Offered: Fall 2019
3 credits

SED 539 - Clinical Practices in Learning Disabilities
Supervised experience in teaching learning disabled children in both clinical and public school settings. Scheduled summer semesters. Typically offered summer semesters.
Prerequisite(s): SED 365, SED 435 and departmental permission.
Last Offered: Summer 2019
1 to 6 credits

SED 550 - Early Childhood and Developmental Differences
Child development theory related to developmentally and individually appropriate practice and model program development; evidence-based practices relevant to promoting young children’s growth in key developmental areas. Typically offered fall and spring semesters.
Prerequisite(s): SED 225, SED 481 or equivalent.
Last Offered: Fall 2018
3 credits

SED 551 - Parent—Professional Relationships
Legal, ethical and practical aspects of working with families to support the development of children with special needs. Family systems theory, cultural awareness, and communication skills as they relate to working effectively with families. Typically offered fall and spring semesters.
Last Offered: Fall 2018
3 credits

SED 552 - Evaluation and Service Delivery in Early Childhood
Developmental and educational assessment and program planning for infants and toddlers. Methods for facilitating development through play, instructional and environmental adaptations, and individualized planning. Assignments involving observations of infants and toddlers required. Typically offered fall semesters.
Prerequisite(s): SED 550.
Last Offered: Spring 2018
3 credits

SED 553 - Assessment and Intervention in Early Childhood
Methods for facilitating development through play, instructional and environmental adaptations, and individualized planning. Assignments will require observations of preschool children in a group setting. Typically offered spring semesters.
Prerequisite(s): SED 550 and SED 552 or departmental permission.
Last Offered: Spring 2017
3 credits

SED 554 - The At-Risk Child in the Early Elementary Grades
Assessment Selection and use of instructional procedures and materials for cognitive and social growth in young disabled and/or “at risk” children (ages 5-8). Typically offered fall semesters.
Last Offered: Fall 2017
3 credits

SED 558 - The Early Childhood Special Education Teacher as Team Facilitator
A study of the teacher’s role as member and/or facilitator of an ECSED transdisciplinary team. A didactic and experiential format will be used. Typically offered summer semesters.
Prerequisite(s): SED 550, SED 551, SED 552, and SED 553 and departmental permission. Co-require: SED 559.
Last Offered: Summer 2017
3 credits

</tbody>
</table>
SED 599 - Special Topics
Special Topics in Special Education. (Topics vary)
Last Offered: Summer 2016
1 to 6 credits

SED 600 - Directed Study and Research
Solving particular problems in communities through a supervised independent study relevant to the education of all exceptional children. The master’s thesis may not be written in connection with this course. Typically offered fall and spring semesters.
Prerequisite(s): departmental permission.
Last Offered: Spring 2019
1 to 6 credits

SED 605 - Administration and Supervision of Programs for Individuals with Special Needs
Needs Techniques for school administrators and supervisors in Planning and Placement and Due Process procedures. Characteristics of and programming for exceptional students, legislation and funding; education of all students in inclusionary settings meets state requirement for special education course for administrators. Typically offered spring semesters.
Last Offered: Spring 2019
3 credits

SED 610 - Applied Behavioral Analysis in Educational Settings
Applied Behavioral Analysis (ABA) is an approach to teaching founded on the science of behavior. Focuses on appropriate use of effective ABA strategies to help students achieve success in school settings. Typically offered fall semesters only.
Prerequisite(s): SED 375 or CSP 574 or equivalent and departmental permission.
Last Offered: Spring 2020
3 credits

SED 621 - Interpersonal and Collaborative Skills in Education
Collaboration skills for working with school staff and parents in providing services for special needs students. Focus on communication, teamwork, group processes, co-teaching, negotiation, and conflict resolution. Open to Master’s and sixth year program students. Typically offer fall and summer semesters.
Last Offered: Fall 2018
3 credits

SED 622 - Consultation and Support Skills for the Educator
Consultation with school personnel and parents, with reference to problem solving procedures, helping steps, interviewing skills, data gathering, goal setting, and intervention planning and support. Open to sixth year program students only. Typically offered spring semesters.
Last Offered: Spring 2016
3 credits

SED 623 - Advanced Consultation & Collaborative Program Development in Education
Organizational structure and program development for collaboration, consultation, and staff support for personnel who work with special needs students. Open to 6th year program students only. Typically offered fall semester.
Last Offered: Spring 2016
3 credits

SED 624 - In-Service Training and Workshops in Education
Strategies and practices for presenting educational in-service programs, workshops, and institutes, with particular reference to changing professional roles and responsibilities in collaborative and inclusive schools. Open to Master’s and 6th year program students. Typically offered summer semesters.
Last Offered: Summer 2017
3 credits
SED 636 - Critical Issues in Assistive Technology
Provides an opportunity to examine a variety of issues that are facilitators and barriers to successful AT implementation. Among the topics included are funding, technical support, professional development, equity issues, and legal issues. Students also examine research methods and trends in assistive technology.
Prerequisite(s): SED 517, SED 593, and SED 594.
Last Offered: Spring 2020
3 credits

SED 641 - Ethical and Professional Conduct
Explores the nature of professional ethics and behavior in educational psychology and applied behavior analysis. As such, the course will focus on building knowledge regarding standards of conduct guiding the fields. In particular, the standards set forth by the American Psychological Association (APA), the National Association of School Psychologists (NASP), and the Behavior Analyst Certification Board (BACB) will be covered.
Last Offered: Spring 2019
3 credits

SED 652 - Assessment of Autistic Spectrum Disorders
Study of the social, cognitive, neurological, and communicative aspects of Autistic Spectrum Disorders. A range of assessment techniques and instruments for individuals at various levels of functioning will be stressed.
Prerequisite(s): departmental permission.
Last Offered: Summer 2019
3 credits

SED 690 - Principles of Applied Behavior Analysis
Overview of history, features and principles of learning central to the science of Applied Behavior Analysis (ABA) and how these principles relate to learning and behavior.
Last Offered: Fall 2019
3 credits

SED 691 - Research Methods
Designed to review basic research concepts and to introduce students to more advanced concepts in group and single subject research studies. Included content is designed to meet the standards of BCBA certification while developing students’ broader understanding of general research methods.
Last Offered: Fall 2019
3 credits

SED 692 - Advanced Applied Behavior Analysis
Examination of advanced topics in ABA and their relevance to a variety of applied situations focused on learning and behavior. Topics will include specialized behavioral assessments, interventions, staff and parent training, and learning theories.
Prerequisite(s): CSP/SED 690, SED 610, SED 691.
Last Offered: Spring 2019
3 credits

SED 693 - Assessment in Applied Behavior Analysis
Builds on information learned in SED 690 and SED 691. SED 693 will provide students with an introduction to assessment design and implementation, individual assessment strategies, data collection, data summary, data interpretation, and adapting assessment strategies to assess individual differences.
Last Offered: Spring 2020
3 credits

SED 694 - Intervention in Applied Behavior Analysis
Information on intervention using the principles of Applied Behavior Analysis to design programs to help individuals experience more success in their lives (socially, academically, and behaviorally).
Corequisite(s): SED 693.
Last Offered: Spring 2020
3 credits
SED 695 - Supervised Independent Fieldwork in Applied Behavior Analysis

Supervised experience in applying ABA in real-world settings, including observation, assessment, measurement, and identification and design of interventions. This course provides some of the supervision required to sit for the BCBA exam. Prerequisite(s): Enrollment in or completion of CSP/SED 690.

Last Offered: Spring 2020

1 credits
