STUDENT SERVICES

A wide range of services and programs are offered to Southern Connecticut State University students to aid, motivate, and enrich their learning, and to contribute to their welfare and individual growth. Most of these services are coordinated by the Division of Student Affairs. By encouraging students to integrate their classroom learning with experiences outside the classroom, the division fosters a climate in which each student can be challenged to higher levels of intellectual, personal, and social growth.

Student Affairs programs which are described below seek to: (1) promote academic/educational development and success; (2) encourage community engagement and active participation in student life activities and physical activities; (3) provide focused educational and enrichment programs for special groups of students; (4) support personal growth and development; and (5) provide amenities and services for the general well-being of the University community at large. In addition, the division upholds the general regulations of the University as listed in the Student Handbook.

**Support and Resource Team (SART)**

Southern Connecticut State University's Support and Resource Team (SART) is designed to provide a collaborative victim/survivor-centered team response to sexual violence. The mission of SART is to provide services that ensure a transition from victim to survivor for every individual whose life is impacted by sexual violence. The SART members can provide a survivor with many supportive options including counseling, medical attention, judicial services, advocacy, referrals, and general information regarding sexual violence. Should a survivor choose to file a police report, the University Police and Violence Prevention, Victim Advocacy and Support (VPAS) Center staff will assist the individual with the reporting process. SART members strive to empower the survivor to make their own decisions by providing on- and off-campus resources. SART members will offer support as needed and hold perpetrators accountable. SART members will keep confidentiality to the best of their abilities.
The SART has been designated by the Division of Student Affairs to handle sexual assault cases. The team includes a coordinator and designated individuals from throughout the University. The Support and Resource Team is available to help anyone who reports a violation of the sexual misconduct policy. In cases of immediate danger or an emergency, call the University Police at 911.

For information or to report sexual violence, students may contact any member of the team. Please visit the Violence Prevention, Victim Advocacy and Support (VPAS) Center website at www.southernct.edu/sart for team members’ contact information and details of services.
