Department Secretary: (203) 392-7003

18 Credits Required

This interdisciplinary minor provides an introduction to the field of forensic science and
is meant to present a broad, integrated view of its various sub-disciplines. The forensic
science minor addresses topics such as crime scene documentation and reconstruction,
criminalistics, and DNA analysis. The minor is composed of courses in anthropology,
biology, chemistry, psychology, and sociology, reflecting the interdisciplinary nature
of forensic science. Students benefit from this interdisciplinary approach and draw
connections among the diverse course offerings to gain a comprehensive introduction to
the forensic sciences.

This interdisciplinary minor helps students prepare themselves for careers in criminal
justice, law, government, and academia, among other areas. Students considering
the forensic science minor should consult with the minor coordinator and complete
a declaration form. The minor is jointly sponsored by the Anthropology, Biology,
Chemistry, Psychology, and Sociology Departments.

Required:
ANT 252 — Introduction to Forensic Science

Select five courses from:

• ANT 322 — Forensic Anthropology
• ANT 352 — Crime Scene Investigation
• ANT 442 — Advanced Forensic Anthropology
• BIO 205 — Forensic Biology
