MINOR IN NATURAL RESOURCES

CONTACT:
Thomas Fleming
flemingt1@southernct.edu

18 Credits Required

The natural resources minor is intended to supplement other primary degree programs at SCSU with a rigorous scientific background and training in areas of the earth sciences related to natural resources. It is intended for students with career interests in the exploration, management, and conservation of Earth's natural resources including minerals, energy, water, and soils.

Required Courses:
ESC 200 - Physical Geology
ESC 201 - Historical Geology
ESC 311 - Mineralogy

Select two of the Following:
ESC 359 - Engineering Geology
ESC 420 - Earth Resources
ESC 457 - Hydrology
ESC 458 - Soil Science
